REMOTE MONITORING 0800 HARVEST

Irrigation & Water Monitor

The Harvest Irrigation and Water Level Monitor provides real-time data and automated alarms to help swiftly identify problems, protecting valuable resources.

- Data viewable via secure website or Harvest Web App
- Automated alerts available (e.g. email or text alert for low/rapidly decreasing tank level)
- Two water meter/pump status inputs (optional transfer of data to council)
- Integrated Vodafone/Spark modem
- Solar powered with high-capacity battery
- Stainless steel mounting brackets
- Weatherproof enclosure
