

HARVEST.COM

Portable Stop/Go Lights

The Harvest Stop/Go Lights are designed to be quick & effortless to set up & operate as a direct replacement for Stop/Go paddles. For most work sites a single operator can be positioned in the centre of the site, away from traffic & other hazards, generally in a more comfortable location improving job safety and satisfaction

- 30+ hours run time
- Certified for site length up to 2km
- In-built chargers in battery packs & controller
- Fits standard sign bases
- All activity and GPS location logged to our servers by inbuilt cellular modem for audit and remote diagnostics
- New Zealand designed, built and supported
